This bibliography of books, reports, dissertations, journal and general-interest magazine articles, conference papers and newspaper items has been compiled to facilitate research and to guide those interested in informing themselves on a topic of current interest.

Within each division (that is, within listing for each type of publication) items have been grouped by year in reverse chronology. The compiler felt that the most recent material would be of most interest to the user and, thus, has listed later years first. Within each year items have been listed alphabetically by entry given (usually author surname), except in the case of newspaper entries, where precise dates of issue were available. In the case of newspapers items were listed within each year in reverse chronological order.

Emphasis is on English-language material, although the few non-English titles picked up in the sources searched were included.

Various lengths of runs of the following sources were examined for items:

- Books in Print, 1981-82
- British Humanities Index
- Canadian Newspaper Index (now Canadian News Index)
- Canadian Periodical Index
- Cumulative Book Index
- New York Times Index
- Psychological Abstracts
- Social Sciences Index
- Sociological Abstracts
- U.S. Government Monthly Catalog
- Washington Post Index

Number of pages in books, reports and dissertations was indicated when information was readily available. It is hoped this will help the user to judge the worth to him of pursuing an item.

ABBREVIATIONS USED (for newspaper titles):

- CH --- Calgary Herald (Calgary, Alberta)
- G&M --- Globe & Mail (Toronto)
- HCH --- Halifax Chronicle-Herald (Halifax, Nova Scotia)
- MG --- Montreal Gazette (Montreal)
- MS --- Montreal Star (Montreal)
- NYT --- New York Times (New York City)
- SS --- Sunday Star (Toronto)
- TS --- Toronto Star (Toronto)
- VS --- Vancouver Sun (Vancouver, British Columbia)
- WFP --- Winnipeg Free Press (Winnipeg, Manitoba)

Other newspaper titles are given in full.

The compiler does not claim completeness for the newspaper article section. The concern was to pick up the articles from the newspapers of national interest in Canada (Globe & Mail) and the United States (New York Times and Washington Post). Other articles from regional newspapers were included if they were encountered in the indexes searched. Similarly, British newspaper articles encountered in the general indexes searched were included, but British newspaper items were not searched out systematically. The emphasis here is North American.
